

Lista Arlink® 7000 Adaptable Workbench Systems

Arlink 7000 Workbench Systems help companies like yours optimize performance in the workplace by providing efficient, ergonomic, and well-designed workbenches which significantly improve productivity, maximize use of floor space, boost morale and produce a safer work environment.

SUPERIOR VERSATILITY, SOLID VALUE

Arlink 7000 workbenches let you tailor your benches to your needs while providing greater versatility than conventional workbenches. Whether you chose stationary or mobile, or choose from our extensive selection of accessories, you can design a workbench that exactly suits your requirements.

Arlink 7000 workbenches' heavy-duty construction is capable of supporting 1000 lbs. (454 kg), evenly distributed. Durable worksurface choices include plastic laminate, static dissipative laminate and butcher block.

Workbench Combinations

Arlink® 7000 workbenches are available in seven sizes. Simply choose the base size, height and worksurface that best suits your needs, and add appropriate accessories, below-worksurface options and hanging drawers (see back cover). For other options and dimensions, please contact your Lista representative.

ARLINK 7000 SOLID VALUE WORKBENCH

Workbench height is 30" (76 cm) or 36" (91 cm). Heavy-duty 2" x 2" tubular legs include leveling glides. Load capacity for all benches is 1,000 lbs. (454 kg) evenly distributed.

STATIONARY WORKBENCH without leg extenders

LEG EXTENDERS*

Part No.

Set 7230LE

*allows nominal height adjustment of 6" on 2 increments

CASTER KIT*

Part No.

2-Swivel & 2-Swivel Locking, 5" Diam. 7M1000

*increases overall nominal height by 6"

Worksurfaces

Worksurfaces are chosen in conjunction with the workbench base, shown above.

STANDARD LAMINATE WORKSURFACE

Worksurface is constructed of 1 3/8" (3.5 cm) thick medium density particle board covered on top and all sides with dove gray, non-glare matte finish plastic laminate. The front edge is contoured for comfort and chip resistance. The under side of the worksurface is sealed with a plastic tension sheet to prevent moisture absorption, warping and shedding.

STATIC DISSIPATIVE LAMINATE WORKSURFACE

Worksurface is the same as the standard laminate worksurface, but with dove gray, non-glare matte finish plastic laminate that provides a controlled path to ground for the dissipation of static electricity. The worksurface is provided with a grounding kit that must be used to provide proper protection for components and personnel. Static dissipative value for the material is 10⁶ - 10⁹.

BUTCHER BLOCK WORKSURFACE

Worksurface is 1 3/4" (4.5 cm) thick satin finish hardwood with squared edge.

Stainless steel, phenolic resin and ball transfer worksurfaces are also available.

Below-Worksurface Options

SKIRTING PANELS

Steel skirting panels enclose ends and back of bench.

END PANEL (workbench d x h)

Part No.

30" x 30" (76 x 76 cm)

72" x 14" x 19" (183 x 36 x 48 cm)	721419SL	721419SD	721419BB

*Other materials available upon request.

ELECTRICAL PANEL INSERT FOR BOX SUPPORT

The panel insert includes illuminated 15 Amp circuit breaker, 4 duplex receptacles and power cord. Electrical panels can be used on one or both shelf supports and can be purchased with shelf or added later.

Part No.

7Z19EP

LIGHT FIXTURE FOR UNDER SHELF

Fastens to underside of riser shelf with wood screws. Includes acrylic diffuser, 7 1/2' power cord and rocker switch. Lights feature economical electronic ballasts and come complete with T8 fluorescent lamp.

Length

Part No.

36" (91 cm)	7Z36USL
48" (122 cm)	7Z48USL

BACK AND END STOPS

Steel stops fasten to worksurface to provide back and end stops. Stops extend approx. 4" above workbench top. End stops are 30" deep and have rounded front corners. Back stop can also be attached to riser shelf.

Vertical Space Integrator (VSI) System

VERTICAL SPACE INTEGRATOR SYSTEM

The VSI (Vertical Space Integrator) System is designed to expand the efficiency of any workbench, regardless of manu-facturer. With the VSI System, you're able to utilize the Arlink® 8000 system's wide range of accessory options (such as task lighting, storage shelves, power beams, parts bin rails, etc.) that easily attach to the vertical col-umn without the need for tools.

Upright Frame	Height	Part No.
